THE NEW UNIVERSALIST CHURCH AT WEST PARIS

## Gammone-Truman.

Alice Gammone and Walter Scott Truman were united in marriage, Saturday evening, at the Methodist parsonage by Rev. C. A. Brooks. The bride is daughter of Mr. and Mrs. Marcellus F. Gammone, the minister for the Norway Water Co. The groom is the son of Mr. and Mrs. Beverly Truman on Water street.

Mr. Truman though still a young man has served three years in the United States regular army. He enlisted when a school boy in the freshman class in Norway high school. He wanted to see the world and the places he read about in books and as he lacked the money to travel he thought he would imitate students he had read of in war stories and enlist. He and a chum started for Ft. Williams. He entered the cavalry branch of the service, for the reason that he liked horseback riding. He learned to ride horseback like many another Norway boy by riding George A. Cole's horses about the streets for exercise.

He got his opportunity to see the world. From Portland he went to Boston, New York, Mexico, Cuba and the Philippines. He saw en route Spain, Malta, Port Said, Cairo and the Pyramids, Suez City, Aden, Colombo, Singapore. In December, 1904, they received orders to start home from the Philippines via Sandwich Islands. They stopped at Nagasaki, Japan and Honolulu. He was discharged at San Francisco, Jan. 31, 1905, and returned to Norway by the Union Pacific and Grand Trunk railways.

This in regard to the Methodist church in Lisbon will be of interest to Norway people—"Rev. A. B. McAllister, the pastor, is one of our youngest preachers, a native of Norway, where he received his license to preach under Rev. C. A. Brooks. He is proving the right man in the right place, and the right place, and the work is prospering under his leadership."

## The Barnum of Picture Shows.

Sherman's Moving Pictures have been booked for an entire week at the Norway Opera House beginning Monday evening, Aug. 6, and the residents of this section are assured a week of exceptional amusement and instruction as this is recognized as the greatest exhibition of the kind in existence, playing all the large cities of the East. Norway's good fortune in securing it for a week is due largely to the fact that it's proprietor, Sherman E. Pike, is a Norway man, having been born and raised here. He is the son of the late Prescott L. Pike, a lifelong resident of the town, who was a widely known t throughout this section.

Mr. Pike after leaving here became connected with several theaters and then went into the moving picture business, being one of the pioneers in that field of amusement. Being a man of original ideas he took the initiative rather than follow the beaten track and evolved so much that was new and invented so many improvements that his exhibition rapidly forced to the front moving picture exhibitors. Through-out Connecticut and New York state he is always referred to as the Barnum of this particular line of amusement.

The exhibition will be put on here exactly as in all the large cities and there will be an entire change of program every evening, something that no other exhibitor is able to produce for an entire week at a time. Manager Pike uses an electrograph which was made under his own supervision and in accordance with plans designed by himself. It is superior to any other machine in use and is

absolutely fire-proof. When it was inspected and passed by the chief inspector of Massachusetts he pronounced it the finest machine that had ever been brought to the State house at Boston for inspection. One valuable feature of this machine is the total absence of the flicker which makes the pictures shown by other machines so difficult to watch. Every scene is absolutely steady and so realistically portrayed that one is almost convinced that he is looking at the actual scene being portrayed rather than the pictured representation.

The views which will be shown here are widely varied and sure to please all tastes, and the entertainment is highly instructive as well as amusing and entertaining. The first night the two special feature series will be a thrilling representation of Western life, "The Life of a Cowboy" and a highly amusing series entitled, "The Terrible Kids." This is one that particularly pleases the children. There will be many others and the views to be shown on the succeeding nights are equally pleasing.

In addition to the moving pictures there will be all the latest popular songs, beautifully illustrated with artistically colored views and sung by Harry Downing, a favorite New York tenor. Monday evening's songs will be "When the Whippoorwill Sings," "Marguerite," "Starlight" and "Only a Message from Home, Sweet Home." New songs will be sung each evening.

Manager Pike has decided on a special schedule of prices for Norway, lower than any he has ever charged elsewhere, 20 cents for adults and 10 cents for children to all parts of the house.

## URIC-O CURED HIM

Rheumatism Tortured and Crippled Mr. Theo. D. Hadley of Kennett Square, Pa.

Dear Friend:—You will remember my writing you some time ago regarding my trouble with rheumatism. I took your advice and purchased three bottles of URIC-O from the local druggist and began its use at once. Favorable effects were experienced and on the third day I improved. I have used the three bottles and can truthfully state that I am a well man.

URIC-O has cured me as bad a case of rheumatism as ever existed. My suffering from rheumatism was intense, sometimes not able to get out of bed. My head—had to do all with my left hand. I even crossed myself for over three months. My trouble being inflammatory rheumatism, settled on my right arm and shoulder. As I thought, permanently. This trouble, however, I have written, a thing I never dreamed of being able to do again, as I had not been able to possibly recover from the terrible effects of the disease, as you know I am now. I am happy to state that after suffering with the disease for over a year, I am now a well man. URIC-O has cured me and my family of rheumatism. My former sufferings are now over, and I am able to sleep well again, eat well and as healthy as a man at the age of fifty. I thank you most heartily for recommending URIC-O to me. I can now recommend it to my friends.

H. Hadley, Kennett Square, Pa.

The marvelous specific is sold at 75 cents a bottle. It is a powerful blood purifier and cures all kinds of rheumatism, acting also on the kidneys and bowels. URIC-O is a liquid and is used three times daily and is the best remedy for rheumatism only. Ask your druggist for samples and circulars explaining the treatment.

Decomposed Body Found.

Some section men in the employ of the Grand Trunk railway found in a clump of bushes about 50 rods south of the Empire station the badly decomposed body of a man the head being separate from the body and lying nearby.

Coroner Spiller, Deputy Sheriff F. A. Miller of Mechanic Falls and Dr. William Ness of Minot were summoned, but the body was so badly decomposed that they could tell nothing definite as to how the man met his death, though Dr. Ness is of the opinion that he died from natural causes. Still he cannot account for the head lying at some distance from the body.

He was evidently about 5 feet and 9 inches tall and probably weighed 200 pounds. He wore a dark coat and striped trousers and his clothing was not that of a professional tramp. Near the body lay a black derby hat and on a band were the initials, P. H. N., while the label of the hat bore the name of a firm of Hargood & Lynch, 171 Hanover street, Boston. In the pockets of the man's clothing were found a knife, drinking cup and a comb.

The description of the dead man tallies with that of a person employed to mow the lawns at the Poland Springs, and the despondent condition of the man when he left that place, confirms the theory of the officers, that he was taken ill and lay down in the bushes to die.

Bro. Bowler's Rumford Falls Citizen came to hand last week. It's a 6-column quarto filled with interesting reading and advertising. The paper is printed at the Times office.

## SOUTH PARIS.

### A Local Circus.

Although the traveling circus that stopped here this season failed to give us a street parade the local society circus was more thoughtful, and a little before noon Wednesday of last week it appeared. At the head was Eva Andrews bearing a banner inscribed, "Circus Today," and following her were some fifteen or twenty other members of the troupe attired in a manner that is becoming to a well ordered circus. The circus was held on Charles Bowker's lawn in the afternoon and was well worth the price of admission which was five plus and extras for the side show features, which were worked in a pleasing and up-to-date manner. The snake got away before the show began but the rest of the menagerie including the toads the grasshoppers and the tin lion were as large as life. The most thrilling acts were leaping the gap on the bicycle which was several times repeated by Harold Merrill, and looping the loop by Willie Frothingham.

### Haying Time.

Founded on Fact.

There's one woman in Oxford county "That's heard about cutting 'the hay'." The question is, "Is it true?" Since the stormy weather in May, "The meddler" will be wett'n'n thunder. "The driver" will be so high, "You can't get the hay cart over To haul hay out to dry."

Thron h June there was daily inspection. Of the knolls and the hollows afield, "Don't bieve with so much wet weather They'll be moun half a yield."

The first of July, more rain fell, And louder grew the lamenta, "God darn it all what's to be done, 'Taint no use now to commence."

But last week there was considerable hustling. That hay was "going to be cut And run the risk of getting it, Couldn't more'n lay there'n rot."

A man with a machine was hired, With a hay cart, and horse take too, And a man with a scythe, besides, To help see the "blamed thing through."

Next day there assembled a caravan Of carts, and horses and men, There was raking, tumbling, sweating and grumbling, With a true 'n' story, now and then.

With "geeing and hawing," a little loud talking, To the barn and takes near covered the ground, (There's only five acres, they say.)

On the piazza, with chair tilted back, "We" in great comfort, we smoke our pipe, The subject has changed, now the talk is "How long fore the taters'll be ripe?"

Mrs. John Eastman was released from her suffering last night, July 21st, about twelve o'clock. She had been a great sufferer for the past two or three years. She was a member of the New Church and the ladies of the G. A. R. and Pythian Sisterhood. She leaves a husband and sister and other relatives to mourn. She was a woman beloved by all and very active in all charitable things. We sympathize with all bereaved friends.

### How to Fry Bacon Properly.

There is no more universally popular breakfast dish than fried bacon, and many people can eat bacon that is properly cooked and daintily served when nothing else will tempt them. The great secret in cooking bacon is to have a clean frying pan, says the New York Journal. No pan should be used longer than six months. At the end of that time it should be discarded and a new one bought. As pans are very cheap, this will not be hard to do. Before putting the pan on the range see that the fire is clear and steady. Then put on the pan, and before getting the bacon in let the pan get quite hot. Cut the bacon in thin slices and turn it as soon as the edges begin to curl. If there is much liquid grease in the pan, pour it off, as the bacon will grow soddish if allowed to remain in it. Have the dish on which the bacon is to be served piping hot and garnished with a little parsley. This will make a very tempting breakfast dish.

### How to Remove Grease From Hands.

A preparation that will remove grease and stains from the hands is this, which should not be used if there are cuts, as it will burn intensely: Cut into small bits an ounce of any nice laundry soap and dissolve it in an ounce of fresh lemon juice. It may be necessary to warm the juice to do this, in which case put the liquids in a small bowl and set into a saucepan of boiling water until the soap is dissolved. Remove from the heat and add one-half ounce of oil of bitter almonds, one-half ounce of glycerin and a quarter ounce of carbonate of potassium. Use as you would soap, rubbing it first well into the hands before applying water.

### How to Preserve Green or Wax Beans.

A good way for preserving green or wax beans is to soak the beans for a few hours in cold water, and then boil them slightly, says Good Housekeeping. Cut them in long, thin slices and pack in large jars with generous layers of salt between the layers. When the jar is full cover with a cloth and put on a weighted plate to keep the beans in the brine. They should keep perfectly until spring.

### How to Build Up Shattered Nerves.

People who are ill or out of sorts or run down ought to have jams, honey, good candy and appetizing sweets of every description. Sugar is a nerve builder and a muscle builder. Nervous people are never great eaters of sugar, and they would be stronger if they took more sweets. Those who take sufficient sweets into their composition are always hardy of nerve and strong of muscle.

### How to Cook Catfish.

Most lovers of catfish like it fried in cornmeal and boiling hard, with adjuncts of corn bread and red coffee, but stuffed and baked is a delicious meat has hardly a superior among fresh water fish, says Outing. Slice and broiled, with a basting of butter, black pepper and salt and served with egg sauce, it is simply delicious, or, if one's taste runs to court bouillon or stew, it is equally good. Catch a few and try them and see if this opinion is not correct.

### OXFORD.

Oxford, 16; Wildmere, 2.

It was like finding money for the Oxford to wallop the Wildmeres at Oxford, Saturday, and they let them off easy by making the score 16 to 2. There was never any chance for the visiting aggregation, and they were rounded up by the champions in the simplest manner possible.

It was a woeful exhibition for the good crowd of fans who hoped to see the Wildmeres put up a strong game, and the worst part of it was the way the Oxford boys piled up the runs at the outset, as the game was won in the first couple of innings, and the only interest remaining in the result, was the size of the score the Oxford desired.

After playing two innings and getting such a lead that nothing short of an earthquake could disturb their position, the Oxford did not have to exert themselves, and the string out saving energy.

Clark, the "Wesleyan star," was an easy mark for the Oxford, and they kept penetrating his delivery all through the contest, but lighted on him particularly hard when he first made his appearance. He was several notches off form and kept the local dodging his wild shots.

On the other hand, Adams went along like a well oiled machinery, and his men backed him up with equal consistency. Bearce relieved Adams in the sixth, Bowler catching and Adams taking second. Arthur Walker is to be commended for his brilliant fielding at first the last three innings. Bowler's fielding was of major league calibre.

Score by innings:

Oxford.....	1	2	3	4	5	6	7	8	9	10	11	12
Wildmere.....	0	0	0	0	0	0	0	0	0	0	0	2

Errors runs, Oxford 8; Wildmere 1. Two base hits, Clayson; three-base hits, Adams; struck out by Adams 8; by Bearce, 3; by Clark, 3; first base on balls of Adams, 2; Unplired, 4; errors, Clayson. Time, 1 hour, 45 min. Attendance, 200.

The Grand Trunk issued an order, which went into effect last Sunday at 9 o'clock a. m., to the effect that there after all trains on double tracks would be run on the right hand track instead of the left hand track as formerly. This has always, or for many years at least, been the custom on United States railways, but in Canada the custom has up to the present, been exactly the reverse. It would appear that the Canadian way was the best, as it brings the engineers on the inside and gives them an unobstructed view of both tracks, but the company doubtless has good reasons for thinking the Yankee way the best, hence the change.

Five loads of tree limbs were carted from the premises of Arthur Shirley after the gale on Sunday last. Many trees lost large limbs and branches on the East Conway street, where the wind seems to have raged with special fury. In some cases whole trees were torn up by the roots or broken off, leaving only a stump. The newly erected telephone wires here were broken down by the falling of a section of a large tree near Chester Lewis', the wind wrenching and splitting it to the ground. With the backing of the trees have suffered from the accommodation of the telephone service, the gale has made sad havoc with the attractiveness of our roadsides.

Your correspondent recently spent a very pleasant day at her childhood home in Lovell. It is situated on the east side of Heath's pond and is owned by Warren McKee, who lives near Center Lovell. The buildings have been vacant for several years but still it has many places of interest and beauty to one who has roamed over it in happy childhood. ##### Union Temperance Meeting.

Following is the program as carried out at the Union Temperance Meeting held last Sunday evening, at the Universalist church, under the auspices of the W. C. T. U., with the president, Mrs. Ella M. Bates, in the chair:

Voluntary Address—Jennie M. Brown Song and praise service—Rev. Thos. Whiteside Duet, Mother's Hymn to Me.

Prayer—Mrs. Locke, Mrs. Flavin Poole, God of the Open Air—Minnie E. Lane

A few well chosen words concerning our prohibitory law and the desire for resubmission, was given by the president, which was followed with singing by a chorus of 25 children. "We March to Victory," a procession with blue cross flags and a prohibition banner in white with blue letters.

A recitation by Maynard Chase, "No High License," to which the chorus responded at the close of each verse, while displaying banner and flags:

"No high license, no high license, Is the watchword of our war, Give us always prohibition, Prohibition everywhere."

After which the chorus sang, "Stand up for Prohibition," to the tune of "Stand up for Jesus," accompanied by the congregation, and then the chorus marched back to their seats. They looked very pretty, sang sweetly and performed the whole without a break, but best of all, they were previously taught the meaning of the big words "Prohibition" and "High License."

Rev. E. R. Verrill made a few appropriate remarks on "The Prosperity of the State of Maine under the Prohibition Law."

Rev. Isabella S. Macduff spoke upon her experience under the license law in the State of New Hampshire. Of those who have heard the last two speakers, and there was a good house full present, not one could have with honesty preferred the latter condition of affairs.

The meeting closed with a solo by Alice Barden, and a postlude, "Onward Christian Soldiers," by the organist.

Alice Barden's song, so sweetly and ably rendered for so young a girl, is given below.

#### Will It Pay?

Out from the hearthstone the children go, Fair as the sunshine, pure as the snow, A license wrong on a crowded street, For the coming of the guileless feet. Child the rich, and child of the poor, Pass to their wreck through the drain shops Oh, say, will they ever come back as they go, Fair as the sunshine, pure as the snow?

Out from the hearthstone the children fair, Pass from the breast of a mother's prayer, Shall a father's vote on a crowded street, Consent to the snare for the thoughtless feet? Ah! fathers, your finest gold grows dim Black with the rust of such nameless sin! Oh, say, will your dearest come back as they go, Fair as the sunshine, pure as the snow?

Ball Game.

Camp Katahdin played the second game of ball with Long Lake Lodge of North Bridgton, at the grounds of the former in Sweden, the 24th. About twenty young ladies from the sister camp at Bridgton came up to root for the home boys, but it was no use, for after the third inning, the visitors had it all their own way, the Katahdin's not seeing the ball.

The first long ball, the fifth inning for the Long Lake Lodge, after a few wild throws, finally settling down to steady work, and doing the trick to the tune of 20 to 4, the Katahdin's throwing up the sponge in the eighth inning with one man out.

One feature of the game was Ridlon's catch on third, when with bases full, the L. L. L. were sending men round in one, two, three order, he covered the short stop position, roped in a fly, putting the third man out, stopping the slaughter. Score by innings:

1 2 3 4 5 6 7—Total.

## The Story of Father John's

A Story Everyone Should Read, True and Full of Human Interest.

Half a century ago, Rev. Father John O'Brien of St. Patrick's Parish Lowell, Mass., through overwork and exposure, became seriously run down. A cold and stubborn cough and lung trouble threatened his life. An eminent specialist gave Father John, as he was fondly called, a prescription to cure the cold and remove the lung trouble as well as to build up and strengthen the body. The clergyman began to improve at once, the cough disappeared and his lungs healed. It corrected his digestion, made new tissue and Father John was soon restored to his former health and strength.

Father John recommended the medicine to his parishioners and friends, and because of its merits it became the family remedy in thousands of homes, and became known as "Father John's Medicine," having been so named by the people, and was advertised, all with the approval of Father John.

If taken faithfully it will cure all throat and lung troubles, prevent Pneumonia and Consumption, and make flesh and strength.

NOTE—Father John's Medicine is not a patent medicine and does not contain alcohol or poisonous drugs. Read guarantee which follows:

#### \$25,000 GUARANTEE.

As a guarantee that the story of Father John's Medicine is absolutely true, the sum of \$25,000 will be given to any charitable institution if it can be shown otherwise. Also it is further guaranteed that if Father John's Medicine does not do all that we claim for it, your money will be refunded.

Those Auto-friends.

I saw an item in a recent ADVERTISER, 20th inst., concerning some automobilists who chased a horse along the road for several miles until he fell from exhaustion.

It must have been an edifying spectacle. The poor dumb brute in an agony of terror, trying to escape and the human brute in an ecstasy of delight adding to his torture.

And yet some of us are not ashamed that we belong to the human family.

Have those people been punished, or any effort been made to prosecute them for cruelty to animals?

Could they not be sued for damage to the horse, for certainly he will never be able to have any confidence in auto after that experience.

He will never know what moment they will start in pursuit of him again.

It is this class of people who are responsible for the bitter feeling against auto that is so prevalent throughout the country.

We understand that there is a movement on foot to build an electric railroad from Concord, N. H., to Washington, N. H., and also taking in the New Hampshire Musical Festival.

When he came home he told a pretty little story to the children at the Hobbs House, which ran something like the following:

"I've just returned from a beautiful Bethlehem, the New Hampshire Judea. It is a lovely place, high up in the air, and the slow train that crawled along in its upward way to the town was at such a snail-like pace that our children could easily have distanced it in a sprinting race.

The town is up in the sky, eight or ten times as high as 'Jockey Cap.' There is a mountain in or on the high town that rises also eight or ten times as high as 'Jockey Cap.' It is 'Mt. Hermon,' (sometimes called 'Mt. Agassiz').

I climbed that mountain and have brought you a little remembrance from its summit in the form of a small piece of maple in mountain 'manna, myrrh, or frankincense, and I think you will find it very sweet. They told me that it grows wild there, or that the mountain nymphs manufacture it from the 'dew of Hermon.'"

"One of the fairies who dwells on the mountain top came from her lofty bower and gave me this little gift to bring to you with her sweetest love; and I take great pleasure in presenting this nice little remembrance to the children at the Hobbs House from the fairy of 'Mt. Hermon' in Bethlehem."

"I am sorry there is not enough for all the grown-up children of this large family, for grown-up children almost always love 'sweet things.' You know in some of the tales of the sea the husbands frequently eat their sweetest young wives, they love them so dearly and they are so tender."

"Will Mrs. Warren take this gift from the Bethlehem fairy and divide it among the children that it may serve as a second dessert to their good dinner to-day."

EAST STONEHAM.

A Very Smart Ten Year Old.

He has loaded 15 loads of hay in one week, and milks one cow, night and morning, and cares for his six rabbits and two doves.

Mr. and Mrs. J. Y. Stevens visited at Fernando McAllister's, Sunday.

The three children of Mr. and Mrs. Fred Bartlett have the whooping cough.

Bert Kendall called on friends in the Bartlett neighborhood, one night last week.

Frank McAllister is improving lately. Leta McKee and Allie McKee called on Marion McAllister one day last week.

Mrs. Charles Chapin is staying with her parents, Mr. and Mrs. Frank McAllister. Her little daughter is very sick with the whooping cough.

Stearns, Mr. and Mrs. Jack McAllister visited at Frank McAllister's, Sunday.

Committed Suicide.

In the town of Dixfield on Saturday, Frank Rich committed suicide by shooting.

He lived in the extreme end of the town at what is known as Canton Point.

During the day he went to a neighbor's farm and going behind a clump of trees placed a rifle under his chin and discharged the weapon, the charge shattering his head.

Mr. Rich was aged 51. He leaves seven children, the two oldest boys having been the bread winners for the family the past few years owing to the sickness of the father.

Neighbors say the man's physical ailments had very evidently affected his mind of late. The coroner deemed an inquest uncalled for.

At Home in Newspaper Business.

A former Maine newspaper man writes editorially—

"It takes wind to run a newspaper. It takes gall to run a newspaper. It takes a scintillating, acrobatic imagination and a half-dozen white shirts and a railroad pass to run a newspaper.

But money—heavens to Betsey and six hands around; who ever needed money to run a newspaper? Kind words are the medium of exchange that do the business for the editor—kind words and church social tickets.

When you see an editor with money, watch him. He will be paying bills and discharging the profession. Make him trade it out. He lives to swap. Then, when you die after having stood around and sneered at his little jincrow paper, be sure and have your wife send in for three extra copies by one of the children, and when she reads the generous and touching notices about you, forewarn her to neglect to send fifteen cents to the editor."

"The editor knows it and what he wants is heartfelt thanks. Then he can thank the printers and they can thank the grocers. Don't worry about the editor. He has a charter from the state to act as a door-mat for the community. He'll get the paper out somehow, and stand up for you when you run for office whether you ever did him a favor or not, and he will tell about your pigeon-toed daughter's wedding and blow about your big-footed boys when they get a four dollar per week job, and weep over your shriveled soul when it is released from your grasping body, and smile at your giddy wife's second marriage. He'll get along. The Lord only knows how, but the editor will get there somehow."

Dog days are here, canicousses, green corn and cholera morbus will soon be "in our midst."

At an early age he made Bridgton his home, where he was employed in Horace Billings' tannery. Then he went to Galena, Ill., and presently became associated with the tannery of Grant & Son, the head of which was the father of Ulysses S. Grant.

He also became associated with A. E. Collins in the leather business, and in 1897 was managing the Collins tannery at a point several miles away. He was a member of the firm when it advanced the money to supply Capt. U. S. Grant with uniform and equipments when he became colonel of the Illinois regiment to which he was first appointed, and he was very closely connected with the Grants, father and sons, while at Galena. In 1854 he went to Marshalltown, Ia., and became one of the city's most prosperous merchants, a pioneer in certain industries.

In 1856 he was married in Galena to an English lady who, with two sons and a daughter, survives him. For 21 years prior to his death Mr. Willard has been blind. His death was caused by falling down stairs in the night. The deceased was the fourth of the nine children of Hiram Willard.
